Life Science Lesson Plan

Dates:
January 1 - 5, 2023

Time and Period:
12:42 - 1:34 PM, Fifth Period

Performance Standard:

MS-LS1-6

Construct a scientific explanation based on evidence for the role of photosynthesis in the cycling of matter and flow of energy into and out of organisms.

MS-LS3-7

Develop a model to describe how food is rearranged through chemical reactions forming new molecules that support growth and/or release energy as it moves through an organism.

MS-LS2-3

Develop a model to describe the cycling of matter and flow of energy among living and nonliving parts of an ecosystem.

Monday, January 1

NO SCHOOL

Tuesday, January 2

NO SCHOOL

Wednesday, January 3

NO SCHOOL

Thursday, January 4

Topic	Module Review: Cells and Heredity
Objectives	Describe the function of a cell as a whole and ways parts of cells contribute to the function.
Bell Ringer	What are two differences between prokaryotic and eukaryotic cells?
Procedure / Instructional Delivery	Interactive Discussion, Video, Illustrations, Review Quiz
Assessment	Review Quiz

Friday, January 5

Topic	Module Review: Ecology and the Environment
Objectives	Explain the flow of energy through an ecosystem.
Bell Ringer	Create two food chains found in North Dakota.
Procedure / Instructional Delivery	Interactive Discussion, Video, Illustrations, Review Quiz
Assessment	Practice Test
